WELCOME TO BET CHICKS

BetChicks—where chickens are the real MVPs of the betting world! Our token comes with a side of feathers and a whole lot of clucks. Picture this: Elite Chick-O-lympians competing in epic races and events, all while you place your bets and cheer from the comfort of your coop! We've spared no expense in creating the ultimate feathered arena. Get ready for some serious beak-to-beak action! Catch all the excitement live on our website, where the chicken chaos unfolds for your viewing pleasure. And hey, we're not just winging it here. Operating on the Solana network means you can bet securely and globally, without any funny business—unless you count the chickens! So join us for a cluckin' good time and let's make some eggs-traordinary memories together!

FEATURES

Our crack team of developers, blockchain wizards, and probably a chicken or two are constantly churning out new and egg-citing blockchain-based betting markets. So what's in store for you in the BetChicks Ecosystem?

BETTING GALORE

From chicken sprints to pecking contests and daring escapes, if it's competitive, we've got a betting market for it. Our Telegram betting platform is so user-friendly even a chicken could use it—well, almost. Join the flock, place your bets, and catch all the action live with egg-citing commentary!

REVENUE SHARE

Who knew betting on chickens could be so profitable? Our Revenue Share Program lets you be part of the coop—erm, team! Token holders can become co-owners of our platform and rake in the clucks—oops, bucks—with our custom Dapp. We're talking a cut of the action, straight from the chicken coop to your wallet.

BETTING MARKET

At BetChicks, we're not just raising chickens—we're raising the stakes! Our crack team of chicken trainers (yes, that's a thing) is busy preparing our feathered athletes for some truly egg-citing events, all to be revealed in the highly anticipated V2 of our Whitepaper. But wait, before the big unveil, check out our current lineup of feather-brained betting markets!

CHICKEN RUN

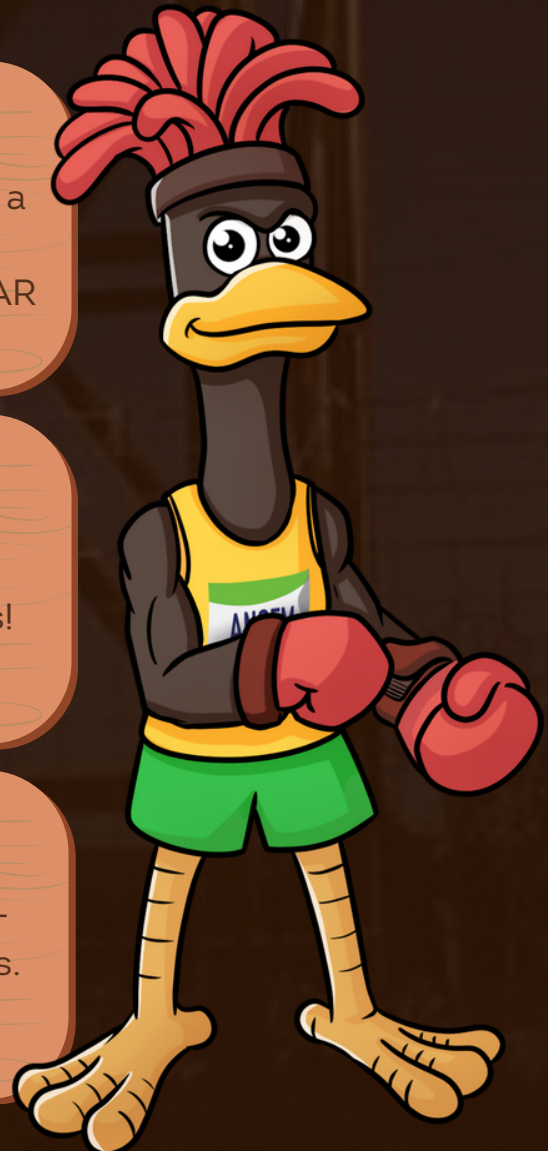

Imagine the Olympics, chicken-style, with a 4-meter dash! Each chicken has its lane, racing to reach their coop first. It's NASCAR with feathers and less fuel!

THE GREAT ESCAPE

Who's the breakout star? Four chickens, cozy huts, and the first to break free wins! Luck and chicken cunning at its best!

GREEDY CHICKS

Bet on the hungriest hen! Imagine a face-off between chickens and their food bowls. Same grub, but who'll finish first? It's a beak-to-beak battle!

REVENUE SHARE

Get ready to cluck with joy! BetChicks proudly presents its Revenue Share Program. We're giving back to our token-loving community by sharing a slice of the fees. Hold \$CHICKS tokens and become a co-owner of the BetChicks world!

The best part? Our Revenue Share Program starts just a week after BetChicks' big launch, strengthening our community by rewarding you with platform earnings. Join us for this egg-citing journey where we value and give back to our flock!

Claim your rewards easily through our revenue share Dapp, right in our Telegram Bot. Enjoy a whopping 25% of total BetChicks revenue—real, tangible yields that make staking irresistible. Hold onto your tokens and watch your rewards grow based on your holding size!

CHICKONOMIC
